

PRODUCT DESCRIPTION

ProBond™ is a Type I Adhesive designed specifically for the installation of ceramic tile on vertical or horizontal surfaces. ProBond is non-flammable and easy to apply.

AREAS OF USE

- Interior or exterior, walls and countertops
- Concrete, mortar beds, masonry
- Cement Backerboards
- Gypsum Backerboards
- Drywall

LIMITATIONS

Do not use to install natural stone, Saltillo pavers or glass tile. ProBond is not recommended for use in areas exposed moisture or temperatures exceeding 140°F (60°C). During application, surface temperature should be between 40°F and 100°F (4°C to 38°C).

APPLICABLE STANDARDS

Meets or exceeds ANSI A136.1.

SURFACE PREPARATION

Surface must be dry and free from dirt, oil and other contaminants that will prevent a good bond. Glossy or painted surfaces must be sanded and cleaned. Surface temperature must be between 50°F (10°C) and 100°F (38°C). Concrete must be fully cured before ProBond is applied.

MIXING

No mixing required. Use ProBond straight from the pail according to instructions.

APPLICATION

1: Using the flat side of trowel, apply skim coat of mortar to the surface. Apply additional mortar with notched side of trowel held at a 45° angle to the surface, combing in one direction. Apply ProBond to areas only as large as can be covered with tile before the adhesive skins over. If adhesive does skin over, remove it and reapply fresh adhesive.

2: Press tiles firmly into adhesive using a twisting motion to ensure good contact to the back of the tiles. Make any adjustments promptly.

CURING

Allow to cure for a minimum of 24 hours before grouting, depending upon temperature and humidity.

CLEAN-UP

Fresh adhesive can be removed with a damp sponge. Clean tools in warm soapy water. Dry adhesive may be removed by scraping or with lacquer thinner.

COVERAGE

40 – 60 sq. ft. (3.7 – 5.6 M²) per gallon when used with a 3/16" X 1/4" (4.8 X 6.4 mm) V-notched trowel.

PACKAGING

- 1 GAL. (3.78 L) Pail
- 3-1/2 GAL. (13.24 L) Pail

STORAGE

Store in a cool dry area. Keep from freezing.

SAFETY

Wear rubber gloves and eye protection. Avoid eye contact. If eye contact occurs, flush with water for 15 minutes and call a physician. Wash thoroughly after handling. KEEP OUT OF REACH OF CHILDREN. DO NOT TAKE INTERNALLY.

WARNING

Western States Wholesale, as blender of processed material in the State of California, we are required by Proposition 65 to warn that one or more of the components in this product, contains chemicals known to the State of California, to cause cancer, birth defects, or other reproductive harm.

AVERAGE COVERAGE PER GALLON

	3/16" X 1/4" (4.8 mm X 6.4mm)
Product	V-notched Trowel
ProBond	40 – 60 Sq. Ft. (4.1 – 5.5 M ²)

* These measurements are approximate. Actual coverage may vary due to prevailing conditions.
